

# BOSS - eProcure

## Installation of required drivers

URL: <http://downloads.bosslinux.in/etoken/>

Username : etoken

passwd : boss-etoken123\$

## Copy the downloaded file to “/opt “ folder ->

```
sudo cp -r /home/boss/Downloads/eprocure_token.zip /opt/.
```

```
cd /opt/  
sudo unzip eprocure_token.zip  
cd eprocure_token/etoken  
sudo dpkg -i *.deb  
sudo ls -l /usr/lib/pkcs11
```

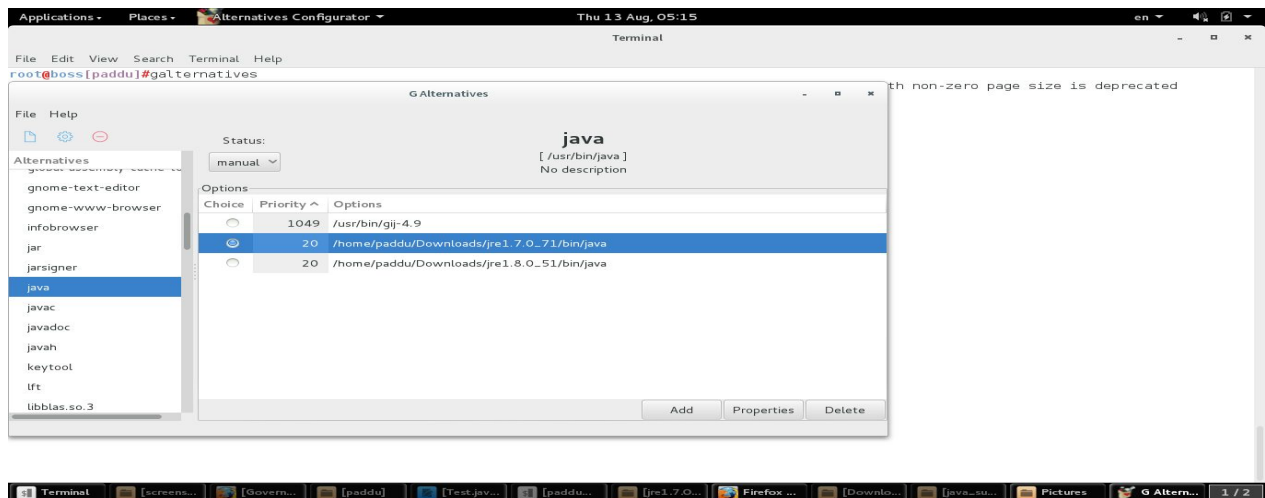

## Insert a DSC token

```
sudo cat /etc/etoken.conf
```

## Installation of Java

```
sudo cd /opt/eprocure_token/java_sugested/  
sudo tar -zxvf jre-7u71-linux-i586.tar.gz  
sudo mv jre1.7.0_71 /opt/  
sudo apt-get update  
sudo apt-get install galternatives  
sudo galternatives
```

## Configure Java Path as shown below :

## Configure javaplugin for Firefox <JRE> -> /opt/jre1.7.0\_71

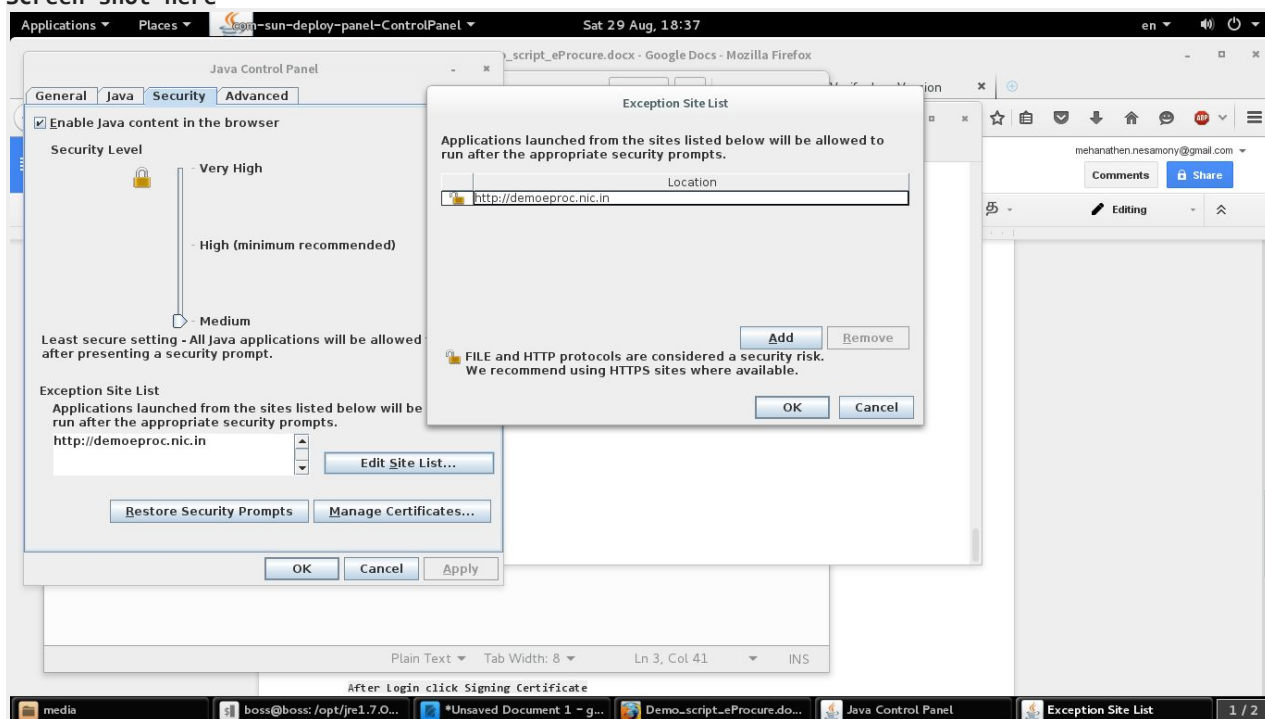

```
sudo killall -9 firefox
sudo ln -s /opt/jre1.7.0_71/lib/i386/libnpjp2.so /usr/lib/mozilla/plugins/
```

## Lowering security and adding eProcure website and javatester.org website: Trusted Sites

```
cd /opt/jre1.7.0_71/bin
./ControlPanel
```

Add: <http://demoeproc.nic.in> to the trusted sites. Lower security also as shown below

Screen shot here

firefox <http://java.com/en/download/testjava.jsp>

**Restart the computer**
